We hereby certify that the material shipped under the above Purchase Order has undergone thorough inspection in accordance with all applicable specifications and standards. This inspection was conducted in alignment with customer drawings, directives specified in the purchase order, and customer quality codes.

Furthermore, we confirm adherence to any additional controlling documents that specify requirements for process handling, identification, product testing, and inspection standards. Each step has been documented accordingly to ensure traceability and compliance throughout the entire inspection process.

This certification confirms that the material conforms to the required specifications and is suitable for the intended use.
